🔗 LeetCode

Summary

AI/ML undergraduate and Research Intern with hands-on experience in machine learning, computer vision, NLP, and LLM-based applications. Built end-to-end AI systems using Python, PyTorch, FastAPI, and Flask while working on research and industry-inspired projects. Seeking AI research and machine learning engineering opportunities to develop scalable, real-world intelligent systems.

Education

Alva's Institute Of Engineering And Technology, VTU

2023 – Present

B.E., Artificial Intelligence and Machine Learning

Mangalore, Karnataka — CGPA: 8.5

Jain University

2021 – 2023

PUC, PCMC

Bangalore, Karnataka — Percentage: 82.8%

ACTS Secondary School (ICSE)

2021

Class X, Science and Computer

Bangalore, Karnataka — Percentage: 89.8%

Skills

- **Programming Languages:** Python, SQL, C , Java
- **AI/ML:** Machine Learning, Deep Learning, NLP, Computer Vision
- **Data Analysis & Visualization:** Numpy, Pandas, Matplotlib, Data Visualization, Tableau
- **Libraries & Frameworks:** scikit-learn, PyTorch, OpenCV, NLTK, spaCy, Flask, FastAPI
- **Web & Database:** HTML, MongoDB, React.js, MySQL
- **Developer Tools:** Git/GitHub, VS Code, Jupyter Notebook, Anaconda
- **Core Concepts:** DSA, DBMS

Projects

Sketch2Code | Python, Flask, YOLOv8, Gemini 2.5 Flash (LLM), Bootstrap, OpenCV | 🐙

Jan 2026 – Jul 2026

- Built an AI-powered pipeline that converts hand-drawn UI sketches into responsive HTML, achieving **90%** success on **10** benchmark sketches.
- Processed **11 UI components** per sketch with **89.4% precision** and **88.7% recall**, generating HTML in **46.5 s (291 ms)** YOLO inference).

Phoenix | Flask, Python, Gemini 1.5 Flash, spaCy, NLTK (VADER) | 🐙 | Live Demo

Aug 2025 – Sep 2025

- Built a mental health support chatbot using **Flask, Gemini 1.5 Flash, spaCy, and NLTK (VADER)** with **sentiment analysis, mood tracking, journaling, and chat history management**.
- Developed a Flask REST API, achieving **100% response success, 100% crisis detection accuracy**, and an average latency of **236 ms** on a **100-prompt** test set.

Internships

Manipal Institute of Technology, Manipal

March 2026 – Present

Research Intern, Advanced Process Control Lab (ML)

Manipal, Karnataka

- Selected for a six-month research internship at the Advanced Process Control Lab (CPS Enabled), MIT Manipal.
- Working on machine learning based temperature control of a laboratory-scale batch reactor.
- Researching data-driven temperature control for nonlinear batch reactor systems. Developing machine learning models for temperature trajectory control in batch reactors.

Certifications

• **Deloitte Australia – Data Analytics Job Simulation** [Certificate]

Feb 2026

• **Google Cloud Career Launchpad – Generative AI Leader Track** [Certificate]

Aug 2025

Outreach & Mentorship

- Delivered Python fundamentals training to **100+** high school students as a part of **Python Prayana** initiative, sparking early interest in programming and technology careers.
- Led Mathematics and Computer Science tutoring for student groups of **2–15**, simplifying core concepts to strengthen conceptual understanding.
- Advanced to the final round of a department-level hackathon **Technavate 2k25**, improved project solving skills and prototyping in small amount of time.
